

# EMILY KOPP (LOWEN)

## ABOUT

Emily Kopp is an artist, songwriter, & producer based in Nashville, TN.

She began releasing music independently as a college student, while working at a music venue, moonlighting in bars, and eventually touring all over the U.S. early on in her career (having opened for Brandi Carlile, Matchbox 20, & others). Feeling the weight of burnout creeping in all too soon, Kopp decided to sell all of her belongings & backpack the world for a year in search of inspiration . From the busy streets of Bangkok, to the colorful corners of Hanoi, Vietnam, and the mountains of New Zealand, she spent that time writing, producing remotely - but ultimately, finding balance and newfound connections to music.

Since that time, Emily has stepped back out as an artist - introducing her project ‘Lowen’ to the world in 2019. As a writer + producer, her songs and voice have been heard in campaigns for Android, LG, Volkswagon, Nintendo, and more.

Emily is currently based in Nashville, TN (where she works out of her personal studio), and splits time working between California and Florida.
